Cow's milk, lactose and egg

- Oatibix
- Weetabix
- Weetabix Chocolate
- Weetabix Organic

The following do not contain cow's milk, lactose or egg ingredients but are made in a factory where milk derived ingredients are part of another product.

For example, Alpen High Fruit is milk and lactose free but is made in the same factory as Alpen Original which contains dried skimmed milk and dried milk whey powder.

Weetabix Minis Chocolate Crisp are milk ingredient and lactose free but they contain plain chocolate. Our supplier of plain chocolate cannot absolutely guarantee the absence of milk chocolate traces on the plain chocolate we use. All other Oatibix Bites, Weetabix Minis and Weetabix Bitesize are made in the same factory.

The possibility of milk ingredient trace, though very slight, exists, hence the advisory on the following packs:

Alpen High Fibre
Alpen High Fruit

Oatibix Bites - Sultana & Apple
